EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jasper W. Dockrey on 03/02/2005.

The application has been amended as follows:

- In claim 1, line 14, "is one of an inclined surface or" has been changed to --comprises--.
- In claim 1, lines 17-18; "comprises a curved surface which" has been deleted.
- In claim 1, line 18, "and which" has been changed to --and--.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

- With regard to claim 1, Hamakawa et al (US 5,126,907) shows a thin-film magnetic head including: a lower core layer; a recording core formed on the lower core layer, the recording core including a structure having a gap layer and an upper pole layer sequentially arranged in that order; **but fails to show** that a tip surface of the upper core layer includes a curved surface which gradually recedes in the height direction and which recedes toward side surfaces of the tip surface, wherein the side surfaces are displaced apart from one another in the track width direction.
- With regard to claim 9, Hamakawa et al (US 5,126,907) shows a thin-film magnetic head including: a lower core layer; a recording core formed on the

lower core layer, the recording core including a structure having a gap layer and an upper pole layer sequentially arranged in that order; **but fails to show** that the upper core layer further includes an edge surface in contact with the upper pole layer, and wherein, at the edge surface, the width of the upper core layer in the track width direction is greater than the width of the upper pole layer in the track width direction.

- Applicant asserts this invention provides a magnetic head in which side fringing can be appropriately suppressed and which can be fabricated with a high degree of consistency (Specification, p. 4, lines 1-3).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
